Experience

Full Stack Developer — Pedrazzoli Digital

January 2024 – Present

Remote

- Delivered more than 10 production web applications for clients across multiple industries.
- Built responsive React and Next.js applications using reusable component architecture and modern TypeScript.
- Designed and implemented RESTful APIs supporting ecommerce, booking, authentication, and business management workflows.
- Integrated Stripe and Pagar.me payment gateways, including subscriptions, webhooks, PIX, and automated order processing.
- Designed scalable MongoDB data models and backend services with a focus on maintainability and performance.
- Managed projects from discovery and development through deployment and production support.

Content Operations Analyst — Accenture Portugal

May 2024 – Present

Lisbon, Portugal

- Performed quality assurance for one of the world's largest digital platforms.
- Designed and developed an internal AI powered application using Next.js, TypeScript, and the Google Gemini API.
- Built a searchable decision support system covering more than 25 moderation policies, improving consistency and reducing research time.

Founder & CEO — Elite Surfing

2010 – 2024

Brazil

- Scaled a surf accessories company into a nationally distributed brand while leading a team of 16 employees and overseeing all business operations.
- Architected and built the company's production e-commerce platform using React, Node.js, Express, MongoDB, and Stripe, delivering payment processing, shipping integrations, inventory management, and a secure administration portal for distributors and retailers.

- Managed the full manufacturing lifecycle, from product design and production planning to supplier management, quality assurance, sales strategy, financial operations, and private label manufacturing.

Featured Projects

Elite Surfing Brasil

Ecommerce platform

Tech: React, Node.js, Express, MongoDB, Stripe, Pagar.me

- Built a full stack ecommerce platform from scratch.
- Integrated secure payment processing (PIX, Boleto, and credit cards), shipping providers, authentication, and an administration portal.
- **Live:** <https://elitesurfing.com.br>

Centro Dentário Colombo

Healthcare platform

Tech: Next.js, Clerk, TypeScript, Tailwind CSS

- Designed and developed a multilingual healthcare platform with a secure patient portal and administrative features.
- Implemented authentication, responsive UI, SEO optimization, and GDPR compliant architecture.
- **Live:** <https://www.centrodentariocolombo.com/>

Chi Sublime

Appointment management platform

Tech: Next.js, React, TypeScript

- Developed a full stack appointment management platform with secure authentication, online booking, and an admin dashboard for managing schedules and customer appointments.
- Designed responsive interfaces and optimized booking workflows to provide a seamless experience for both customers and administrators.
- **Live:** <https://www.chisublime.pt>

Ferri Schoedl Advocacia

Law firm website and digital platform

Tech: Next.js, React, TypeScript, Tailwind CSS, Stripe

- Designed and developed a modern website with integrated bookstore, online courses, and payment processing.
- Implemented responsive UI, content management, and SEO best practices.
